The Houston Chronicle says that a woman in Beaumont rendered one hundred thousand dollars in cash for assessment. Now wouldn't that kill some of those old he duffers who would swear to any kind of an old lie to prevent paying taxes on that amount of cold cash. Yet there are many who should do so but, by the great horn spoon, they don't do it. This lady's name should be printed in box car letters, with the proper explanation, and posted in every court house in the state. The old drake who says this woman is devoid of business sense cannot gainsay her honesty. If a tax assessor was to act gate keeper for heaven, how many tax dodgers would enter the pearly gates?—Athens Knocker.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.
To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

The old family horse can get seared at a hog humped up in a fence corner and run away and cripple three children and break the old man's leg, and the hired man's shoulder, and it will not get as much newspaper space as an automobile that butts against a telephone pole and spills a quart of gasoline.—Farm and Fireside.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some soused meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by W. J. Sedberry.

Grilled Tiger.

Evidently tiger flesh is a popular article of diet with the Chinamen of the Straits. A young but full-grown tiger was shot by a Malay, and was brought in to Teluk Anson for the usual government reward of \$25. The skin, which was beautifully smooth and soft, was soon disposed of, and the meat was sold in town at 40 cents a catty.—Echo, Penang.

Thanks to the Hen.

Houston Chronicle:

A man can make a garden
In a month or so, they say;
But an old hen can unmake it
In about half a day.

Lockhart Register:

Yes, Biddie eats the garden,
But she asks no one's pardon
While she scratches with her legs;
She eats the vegetation,
And enjoys the situation,
While she masticates the ration,
And turns it into eggs.

Of course I was not raised in a city, hence my ignorance on up-to-date salvation. I was only accustomed to the "old time religion" that was as free as the air that surged across our broad, grassy prairies. On Sundays everybody went to church, and there were no reserved or paid seats. A calico frock felt no embarrassment in rubbing up against a silk dress, and hickory shirts and leather leggings were social and chummy alongside of fine linen and black broadcloth. In those days people went to church to worship God in spirit and in truth, and not to exhibit the latest novelties in tailor creation or extraordinary productions in shop-made human figures.—K. Lamity's Harpoon.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Every druggist sells and guarantees them, at 50c a bottle.

All that the South needs is the development of its sources, the manufacture on a constantly enlarging scale of its raw material into the finished product, the building of good roads over every portion of it, and the encouragement of educational advancement, that the coming generations may be equipped mentally to grasp the great opportunities, which fifty years from now will be as inviting as they are today.—The Dixie Manufacturer.

Word and Works Magazine.

Rev. Irl R. Hicks, the noted weather forecaster of St. Louis, Mo., has for eighteen years past edited a monthly journal of national reputation, Word and Works. We have received Word and Works at this office and can testify to its value as a family monthly. Prof. Hicks has just decided to change his family monthly to magazine form and with the October number, the monthly will be a beautiful magazine profusely illustrated with half-tone engravings. One of the early fall numbers of this magazine will contain Prof. Hicks' weather forecasts for the first six months of 1906. The January, 1906, number will contain the weather forecasts for the second six months of 1906. These two numbers of the magazine will take the place of the Hicks Almanac, which will be discontinued. The matter that has heretofore been published in the Hicks' Almanac each year will now be found in the magazine and much more. The price of the Word and Works Magazine is 10 cents per copy or \$1.00 per year. Send 10 cents for a copy of the October number, which gives you full particulars of how the Hicks' weather forecasts for a year in advance will now be given to the public. Two or three days of the county court were taken up last week in which the identity of a horse was at stake. Both parties in the suit claimed that the horse was his property, and each had witnesses to prove his claims. The jury failed to agree. The case has been in the courts about two years and the costs are said to have run up to two or three hundred dollars. The horse is not worth over fifty dollars at the most.—Pittsburg Gazette.
